

```
public class Constructors {  
    public static void main(String[] args) {  
        Object o = new Constructors(2,6);  
        new Constructors(3,4);  
    }  
  
    public Constructors(int a, int b) {  
        System.out.println(a*b);  
    }  
}
```
